

WINDOWS & PATIOS DOORS  
NEW CONSTRUCTION & REPLACEMENT

When You Hear the **Crash...** Think of Jones Paint & Glass!

# WINDOWS & PATIOS DOORS

NEW CONSTRUCTION & REPLACEMENT

Jones Paint & Glass has been your neighbor in the Intermountain West since 1938. We take pride in the beauty of the neighborhood we share with you, and want you to be able to enjoy every budding primrose and golden aspen the seasons bring. Our beautiful windows and patio doors give you the perfect panes to let nature's charm in while keeping the season's elements out, granting you the tranquil sanctuary you've always wanted.

As your neighborhood glass expert, we want to help you make your home look its best. Jones Paint & Glass will customize your windows and doors to specifically suit your needs and will install them ourselves to make sure they always fit perfectly.

# THE MILLENNIAL SERIES

VINYL WINDOWS

If you can dream it, then we can make it. The Millennial Series is our premier window offering, endowing you with all the options you can dream of to truly customize your glass. With a full palette of window styles available and custom mulling for any variety of designs, your creativity and vision really are the only limits.

“There have been so many times that Jones Paint & Glass has helped me beyond their call of duty. I’ve built custom houses with unique windows that had to be exactly perfect, and the Jones Paint & Glass salesman was always out there with me to measure so the specs were always exact. He was also always there when the windows were delivered to make sure they looked and fit perfectly. When I use Jones I know that the service and quality is always there, and I can always count on them to deliver exactly what I need right on schedule.” — **Tom Lamb Construction**

## MILLENNIAL SERIES ADVANTAGES

### Double-Strength Glass & 1" Pane Spacing

Enhances insulation, durability, and security

### Dual Weatherstripping

Maximizes energy efficiency and minimizes air infiltration

### Exterior Vinyl Snap-in Bead

Eliminates water leakage

### Welded Frame and Sash Construction

Ensures air/water seal and durability

### Carefree Maintenance

Full color integration eliminates peeling, rusting, rotting, swelling, blistering and corrosion

### Mulling Options

Combine various styles to get the exact look you want

### Motion Durability

Tandem rollers or concealed block-and-tackle balance system ensure continuous smooth operation

### Casement and Awning Options

Improved energy performance

### Heavy Duty Auto Lock

Enhanced security

### Premium Design

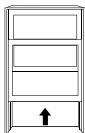

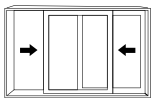

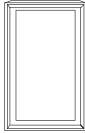

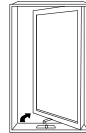

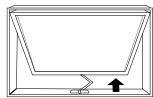

Even sightlines and custom molded frames

### Specially Plated Hardware

Combats rust and corrosion

# THE SENTRY SERIES

VINYL WINDOWS

Bring your vision to life at an affordable price. The Sentry Series was designed to give you a premium window at a modest cost. We offer you an assortment of beautiful window styles to combine and customize to your heart's content, giving you the ability to create the facade you've always dreamed of without breaking the bank.

“Jones Paint & Glass was awesome when we were building our house. We came in with some pretty specific ideas about how we wanted our windows to look, and even more strict guidelines for our budget. We were able to design the windows we wanted and didn't have to pay a dime over our budget! The quality was perfect, and the salesman was great, helping us choose the windows that best fit our needs and designs, and had everything installed right on time. I couldn't be more pleased with how they turned out!” — **Michelle Robbins**

## SENTRY SERIES ADVANTAGES

### Single Weatherstripping

Minimizes air infiltration for better energy efficiency

### Exterior Vinyl Snap-in Bead

Eliminates water leakage

### Welded Frame and Sash Construction

Ensures air/water seal and durability

### Heavy Duty Auto Lock

Enhanced security

### Motion Durability

Tandem rollers or concealed block-and-tackle balance system ensure continuous smooth operation

### Specially Plated Hardware

Combats rust and corrosion

### Carefree Maintenance

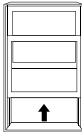

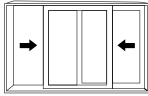

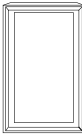

Full color integration eliminates peeling, rusting, rotting, swelling, blistering or corrosion

### Mulling Options

Combine various styles to get the exact look you want

<b>Color Options</b>	  
	Tan    Adobe    White    Custom colors available upon request

Colors shown may vary from actual window frame, handle, and lock.

# REPLACEMENT SERIES

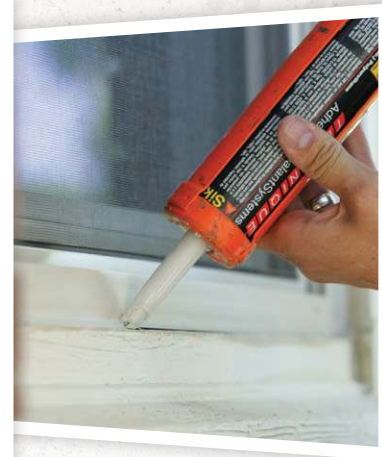

## VINYL WINDOWS

The Replacement Series is our hassle-free solution for replacing old windows, boasting the design and durability of the Sentry Series with flush fins for easy installation.

"We turned to Jones Paint & Glass when we wanted to make in-home updates to maximize our energy efficiency. Jones replaced all the windows in our house and right away we noticed a dramatic drop in our utility bills. The price of the windows was affordable, they were installed perfectly and look great, but the biggest difference is the insulation these windows provide. Our rooms stay warmer during the winter months, and cooler in the summer (even in rooms with west-facing windows), which has worked wonders on our power bill." — **Michael Hancock**

## REPLACEMENT SERIES ADVANTAGES

### Flush Fin

Flush fins offered in two lengths allows easy retrofit installation

### Carefree Maintenance

Full color integration eliminates peeling, rusting, rotting, swelling, blistering or corrosion

### Exterior Vinyl Snap-in Bead

Eliminates water leakage

### Motion Durability

Tandem rollers or concealed block-and-tackle balance system ensure continuous smooth operation

### Welded Frame and Sash Construction

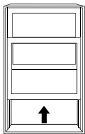

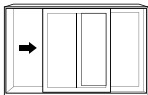

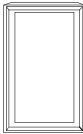

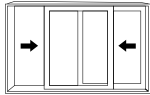

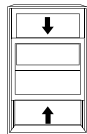

Ensures air/water seal and durability

### Motion Durability

Energy efficiency and noise reduction

## REPLACEMENT SERIES TECHNICAL SPECS

# THE CHALLENGER SERIES

## VINYL WINDOWS

The Challenger Series is our most budget-friendly window option. These windows give you the high quality construction and energy efficiency you can always expect from Jones Paint & Glass, but at a great price.

"I've been in the construction business for thirty years and have owned my own general contracting company for over two decades. I've seen and installed thousands and thousands of windows, so I am fairly confident in saying that I've experienced the good and the bad. As far as Jones Paint & Glass goes, they have the best windows out there. Their three vinyl options make it easy to find windows that fit your budget, and no matter which type of window you choose, I have no doubt that you will be satisfied dollar-for-dollar."

— Val, Jones Construction, Nephi, Utah

## CHALLENGER SERIES ADVANTAGES

### Affordability

Our most affordable series, still with a high attention to quality

### Single Weatherstripping

Minimizes air infiltration

### Welded Frame and Sash Construction

Ensures air/water seal and durability

### Mulling Options

Combine various styles to get the exact look you want

### Carefree Maintenance

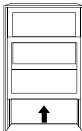

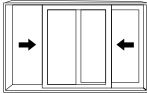

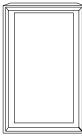

Full color integration eliminates peeling, rusting, rotting, swelling, blistering or corrosion

### Motion Durability

Tandem rollers or concealed block-and-tackle balance system ensure continuous smooth operation

## CHALLENGER SERIES TECHNICAL SPECS

<b>Window Styles Available</b>	   <p>Single Hung    Horizontal Slider    Picture</p>

**All windows are made and milled locally in the Jones Paint & Glass factory in Provo, Utah**

## Low-E Options with Argon

Our Low-E windows with Argon gas come in two options, climate control optimized for either westward or eastward facing windows. In both options, Low E works like microscopic shutters, minimizing summer heat gains, reducing winter heat loss, and protecting household items from UV damage. Argon gas is harmless and fills the sealed space between the window panes. It further enhances the window's climate control efficiency by slowing heat transfer through the air between the panes of glass.

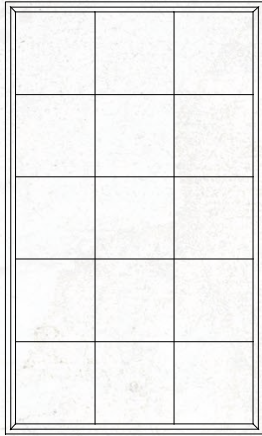

## Energy Star® Approved

Our Millennial Series windows are Energy Star® approved, meaning that they meet strict regional energy-efficiency requirements that are at least 40% more efficient than required by the most common national building codes. Energy Star® is the premier designation for energy efficient products.
