Our Heritage

Jones Paint & Glass has been your neighbor in the Intermountain West since 1938. We take pride in the beauty of the neighborhood we share with you, and want to help you enjoy every budding primrose and golden aspen the seasons bring. Our beautiful windows and patio doors give you the perfect panes to let in nature's charm while keeping the season's elements out, granting you the tranquil sanctuary in your home.

As your neighborhood glass expert, we want to help you make your home look its best. Jones Paint & Glass will customize your windows and doors to specifically suit your needs and will install them ourselves to make sure they always fit perfectly.

All windows are made and milled locally in the Jones Paint & Glass factory in Provo, Utah

Low-E Options with Argon

Our Low-E windows with Argon gas are optimized for either westward- or eastward-facing windows. Low-E (low-emissivity) coatings reflect radiant heat, minimizing heat gains in the summer, reducing heat loss in the winter, and protecting household items from fading and UV damage. Argon gas is a non-toxic, inert, clear, and odorless gas that fills the sealed space between the window panes. This viscous, slow-moving gas offers less convection than typical air, enhancing the window's climate efficiency by reducing the transfer of heat through the window.

Energy Star® Approved

Our Millennial Series windows are Energy Star® approved, meaning they meet strict regional energy-efficiency requirements that are at least 40% more efficient than required by the most common national building codes. Energy Star® is the premier designation for energy efficient products.

Low-E Windows

The Solar Heat Gain Coefficient (SHGC) is the rating used to help measure the energy efficiency of windows, doors, and skylights. The SHGC rating quantifies the percentage of incident solar radiation that enters the home directly or indirectly from the sun, sky, or heat reflected off of outdoor surfaces. Single-pane uncoated glass has an emissivity of .84.

Lifetime Limited Warranty

2017 WINDOW, SLIDING DOOR AND GLASS WARRANTY

This Lifetime Limited Warranty is offered only to owners of single-family housing and is not extended to multi-family housing, buildings used for commercial, governmental or religious purposes. To qualify for the Lifetime Limited Warranty, all products must be paid in full. This warranty applies to all Jones Paint and Glass Inc. (JPG) manufactured windows, sliding doors, and insulated glass units (IGU).

Manufactured Vinyl Window and Door Frames – JPG warrants that all vinyl window frames be free from rot, rust, cracking, warping, pitting, corrosion, peeling, or blistering when installed in accordance with standard approved industry practices. This warranty commences from the time the window or door is purchased and expires twenty years after that date regardless of the number of intermediate owners, labor included. Once the warranty expires, JPG will offer a replacement frame at 50% off current list price, labor not included. Verification and proof of the date of purchase will be the responsibility of the customer.

JPG is not liable for natural weathering or deterioration of components on exterior finishes or for corrosion in highly corrosive or adverse environments. JPG is not liable for unusual or abnormal wear and tear on components, failure due to misuse, any alterations to the window including customer-applied paint finishes, improper installation or handling, or “Acts of Nature.*” JPG is not liable for incidental or consequential damage.

If JPG is unable to provide a replacement part, or repair is not commercially practicable, Jones Paint & Glass will refund the original purchase price of the product. To obtain service under this warranty, please contact your authorized JPG branch or authorized dealer.

Insulated Glass Units (IGU) – JPG warrants that its IGU’s be free from substantial obstruction of vision from dust or film formation or moisture accumulation between the sealed panes of glass resulting from failure of the perimeter seal. This warranty commences from the time the IGU is purchased and expires ten years after that date regardless of the number of intermediate owners, labor included. Once the warranty expires, JPG will offer replacement IGU’s at 50% off current list price, labor not included. Verification for the date of the purchase will be the responsibility of the customer.

This warranty will not apply to:

1. The failure of the IGU where there are applied films or shading devices.
2. Damage caused by “Acts of Nature.*”
3. Mishandling, misuse, abuse, improper installation, installation by persons who are not qualified glaziers, or by any other cause whatsoever not within our exclusive control.
4. IGU’s that fail because of noncompliance with JPG’s published instructions for handling installation, use and maintenance of the IGU.
5. To IGU’s used on any wall sloped more than 15-degrees off plumb or any IGU’s over 50 square feet.

Any claim of failure must be reported to an authorized JPG representative within ninety days of the failure of the seal. Any IGU replaced under this warranty is limited to the original 10-year warranty period.

Glass Breakage – JPG full replacement of incidental breakage is a lifetime non-transferable warranty for JPG-manufactured vinyl windows and doors IGU’s. The warranty is offered to homeowners of newly constructed homes and commences at the time the home is occupied. This warranty also applies to the remodeler homeowner who purchases replacement JPG manufactured vinyl window and door IGU’s when the installation is performed by an authorized JPG installer(s). This warranty does not apply to any rental properties, owner occupied properties that later become a rental properties, windows or doors that exceed warranted size limitations, and/or breakage due to “Acts of Nature.*” Verification for the date of the purchase will be the responsibility of the customer.

Installation – JPG warrants the proper installation of all windows and sliding doors in accordance with industry standards, local building codes, and JPG specifications.

Hardware – JPG warrants all window and sliding door hardware (under normal wear). This warranty includes the replacement of all parts and labor for one year from the time of purchase.

***Acts of Nature** - Includes but not limited to hurricanes, tornadoes, flood, earthquake, fire, and building settlement. It also includes acts of terror, vandalism, and building modifications or structural failure.

Dealer / Distributor - This Warranty applies to independent dealers and distributors of JPG, labor not included. The obligation under this warranty is to replace, but not remove or install, the defective glass, F.O.B. our manufacturing plant.

Testimonials

"There have been so many times that Jones Paint & Glass has helped me beyond their call of duty. I've built custom houses with unique windows that had to be exactly perfect, and the Jones Paint & Glass salesman was always out there with me to measure so the specs were always exact. He was also always there when the windows were delivered to make sure they looked and fit perfectly. When I use Jones I know that the service and quality is always there, and I can always count on them to deliver exactly what I need right on schedule." — **Tom Lamb Construction**

"Jones Paint & Glass was awesome when we were building our house. We came in with some pretty specific ideas about how we wanted our windows to look, and even more strict guidelines for our budget. We were able to design the windows we wanted and didn't have to pay a dime over our budget! The quality was perfect, and the salesman was great, helping us choose the windows that best fit our needs and designs, and had everything installed right on time. I couldn't be more pleased with how they turned out!" — **Michelle Robbins**

"We turned to Jones Paint & Glass when we wanted to make in-home updates to maximize our energy efficiency. Jones replaced all the windows in our house and right away we noticed a dramatic drop in our utility bills. The price of the windows was affordable, they were installed perfectly and look great, but the biggest difference is the insulation these windows provide. Our rooms stay warmer during the winter months, and cooler in the summer (even in rooms with west-facing windows), which has worked wonders on our power bill." — **Michael Hancock**

"I've been in the construction business for thirty years and have owned my own general contracting company for over two decades. I've seen and installed thousands and thousands of windows, so I am fairly confident in saying that I've experienced the good and the bad. As far as Jones Paint & Glass goes, they have the best windows out there. Their three vinyl options make it easy to find windows that fit your budget, and no matter which type of window you choose, I have no doubt that you will be satisfied dollar-for-dollar." — **Val, Jones Construction**

"Our beautiful custom homes use premium Jones Paint & Glass windows. Providing our home owners with unmatched value, visual clarity, protection, energy efficiency, and curb appeal!."

— **Jake Smith, Mitchell Dean Homes**
