Enclosure Styles

Euro Shower Doors

Euro shower doors are an elegant, modern alternative to traditional framed shower enclosures. With beautiful, frameless glass-to-glass connections, Euro shower enclosures bring a clean and seamless look to your bathroom. Because they are frameless, Euro shower enclosures are customizable to nearly any size and design to fit your space.

Framed Shower Doors

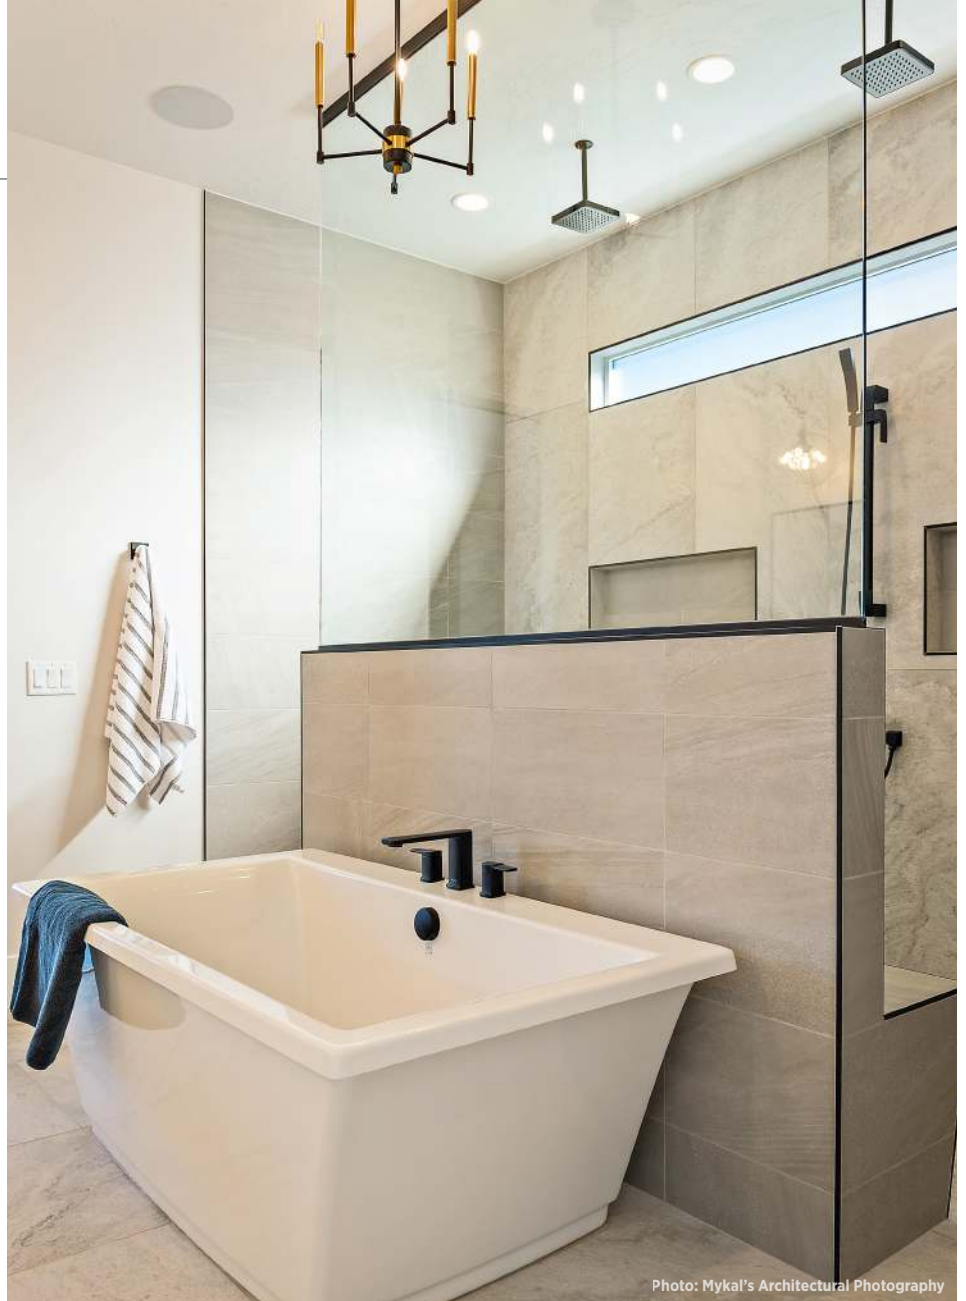

For a more classic and traditional look, consider a framed shower door. With frame styles that can fit nearly any design, a framed shower door pairs your choice of glass with the frame color and style of your choosing to match the style and design of your home. These doors are perfect for traditional shower sizes and openings.

Tub Enclosures

Upgrade your bath with a glass tub enclosure from Jones Paint & Glass. Choose from different glass options, styles, and frames for a customized look to fit your style and taste.
